

IS OFFERING FLOWERS A STEP TOWARDS SPIRITUALITY

Since time immemorial every human being has been embedded with the belief that by offering Garlands, Flowers, Petals and various other such things, one can please God, The prayer, service or worship can be completed successfully with these tangible offering itself. And one can get showers of blessings from God in return-. Such is the belief.

Even in the minds of today's modern and literate masses moving further away from the path of spirituality. A Rat race for such offerings of expensive and rare flowers has also begun, just to prove one's superiority over the others. These show-offs are thought to be the ways to claim their piousness in the society.

Human is so much hypnotized in this activity that he has forgotten that by plucking flowers he is disturbing the delicate ecological balance of the NATURE. The nature is being deprived of its beauty.

Every individual needs to get up today from this age old slumber and realize the universal truth that the way to spirituality doesn't consist of milestones preaching **'SPOIL AND WITHER AWAY NATURE'S CREATION.'**

'DISPELLING OF IGNORANCE' is the need of the hour. One needs to be receptive in taking **TRUE KNOWLEDGE** and be **AWARE** to understand that

GOD IS OMNIPRESENT, GOD IS ALL PERVASIVE;

residing in every fraction of every being. The one who is always attentive and never goes away from this creation. This clears the myth that almighty is to be attained, infact the reality is that **GOD IS TO BE LIVED**. The height of spirituality is a platform, a portal - where the seed of selfless service splutters in one's inner conscience. One gets up to help others and works for the upliftment of the society. So please don't spoil and pluck away fragrance from his creation. Just live God through good deeds and action; they being the true portrayal and exhibition of one's spirituality.

**NEVER EVER PLUCK A FLOWER
GOD IS ITS RESIDENT,
RESPECT HIM, RESPECT HIM TRULY
AND PLANT MORE AND MORE
TREES TO CARVE OUT A
HEAVENLY PARADISE FOR THE
COMING GENERATIONS.**

If you are truly spiritual, you'll always visualize a beautiful world and not a world devoid of its natural fragrance.
